

## **PROTOCOL OF THE ERUDITES**

**Document id : 7756789045673178764**

*Written by I. Manpaint (Last edit: 2019-05-06)*

## **Introduction**

This documents relate the protocol to select individuals eligible for administration in the [The Halls of Erudites](#). Within this context an "erudite" is an individual on the Internet whose contribution is meaningful and productive per Helliosian nomenclature.

The protocol differs on the platform due to the varying factors and conditions.

## **Reddit**

On the platform Reddit, individuals are chosen based on the sources they provide to corroborate their arguments. The sources are nearly always link. Diversity of the sources was also considered.

## **Vg-resource.com (and subdomains)**

The Vg-resource.com is a site were individuals upload video games assets into the subdomains of the aforementioned website. Individuals with a significant amount of contribution were systematically added.

## **RuneScape Wiki**

The RuneScape Wiki is a media-wiki website for the game RuneScape. Individuals with a significant number of edits (contributions) were systematically added.

## **Gbatemp.net**

Gbatemp.net is a forum dedicated to console hacking. Every individual that were Level 3 or higher were systematically

added in. Levels are based on the post count on the website itself.

### **The Future**

The protocol is not definitive and is subject to change. Feedback is welcomed. Further discussion may happen in the Helliosian Server, with *Imperators* (Helliosian mods) being consulted beforehand. Others website are subject to be added in the protocol in the future.

This document, for all purpose, is on public domain, hosted at Archive.org. This piece of documentation serves for transparency purpose.
